

# Journal of Non-crystalline Solids : PROCEEDINGS OF ICQ-8

## Instructions to Authors

The Proceedings of ICQ-8 will be published as a special issue of  
Journal of Non-Crystalline Solids  
and will be edited by

S. Ranganathan, K. Chattopadhyay and K. F. Kelton.

### **Submission of papers**

Manuscripts (one original + two copies) should be sent before September 8, 2002. Electronic submission is encouraged. Manuscripts should be addressed to

Professor S. Ranganathan  
Department of Metallurgy  
Indian Institute of Science  
Bangalore-560012  
India  
E-mail: [icq8@metalrg.iisc.ernet.in](mailto:icq8@metalrg.iisc.ernet.in)

*Original material:* On submission, authors are asked to confirm that the manuscript is not being simultaneously considered for publication elsewhere and that all authors have approved the manuscript and take full responsibility for its contents and so state in their letter of transmittal.

### **Types of contributions**

Original research papers and reviews are welcome. They should contain an abstract (of up to 200 words) and a Conclusions section which, particularly in the case of theoretical papers, translates the results into terms readily accessible to most readers.

### **Manuscript preparation**

All manuscripts should be written in good English. The paper copies of the text should be prepared with double line spacing and wide margins, on numbered sheets.

*Structure.* Please adhere to the following order of presentation: Article title, Author(s), Affiliation(s), Abstract, PACS codes, Main text (Introduction; Experimental procedures or constraints on theory; Results; Discussion; Conclusion. Sections and sub-sections must be clearly numbered according to the Journal style), Acknowledgements, Appendices, References, Figure captions, Tables.

*Corresponding author.* The name, complete postal address, telephone and fax numbers and the e-mail address of the corresponding author should be given on the first page of the manuscript.

*References.* References to other work should be consecutively numbered in the text using square brackets and listed by number in the Reference list. Please refer to past issues of the Journal for examples.

*Symbols/Units:* Authors should follow the Symbols and Units Nomenclature Commission of the I.U.P.A.P. (Physica 146A (1987) 1-68).

### **Illustrations (figures)**

Illustrations should also be submitted in triplicate: one master set and two sets of copies. The *line drawings* in the master set should be original laser printer or plotter output or drawn in black india ink, with careful lettering; lettering should be 2 mm in height after reduction for printing. The *photographs* should be originals, with somewhat more contrast than is required in the printed version. The top edge should be indicated on the back. They should be unmounted unless part of a composite figure. Any scale markers should be inserted on the photograph itself, not drawn below it.

*Colour plates.* Figures may be published in colour, if this is judged essential by the Editor. The publisher and the author will each bear part of the extra costs involved. Further information is available from the publisher.

### **Classification codes/keywords**

Please supply one to four classification codes (PACS and/or MSC) that describe the content of your article in more detail.

### **After acceptance**

*Notification.* You will be notified by the Editors of the Proceedings of the acceptance of your article and invited to supply an electronic version of the accepted text, if this is not already available.

*Copyright transfer.* In the course of the production process you will be asked to transfer the copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.

**IMPORTANT:** When page proofs of the accepted manuscript are made and sent to authors, this is in order to check that no undetected errors have arisen in the typesetting (or file conversion) process. Only printers' errors may be corrected; no changes in, or additions to, the edited manuscript will be accepted. In the case of extended changes, the authors will be required to pay part of the extra costs involved.

### **Electronic manuscripts**

The publisher welcomes the receipt of an electronic version of your accepted manuscript. If there is not already a copy of this (on diskette) with the journal editor at the time the manuscript is being refereed, you will be asked to send a file with the text of the accepted manuscript directly to the Editors by email or on diskette (allowed formats 3.5" or 5.25" MS-DOS, OR 3.5" Macintosh) to the address given above. Please note that no deviations from the version accepted by the Editor of the journal are permissible without the prior and explicit approval of the Editor. Such changes should be clearly indicated on an accompanying printout of the file.

**Author benefits**

*No page charges.* Publishing in Journal of Non-Crystalline Solids is free.

*Free offprints.* The corresponding author will receive 50 offprints free of charge. An offprint order form will be supplied by the publisher for ordering any additional paid offprints.

*Discount.* Contributors to Elsevier Science journals are entitled to a 30% discount on all Elsevier Science books.
